SUMMARY

Aspiring Data Analyst pursuing an MCA at St. Claret College, with a Bachelor's in Computer Science and hands-on experience in SQL, Python, Microsoft Excel, and Power BI for data analysis, dashboarding, and reporting. Completed a Deloitte Australia data analytics job simulation covering forensic technology and Tableau dashboarding, with an award-winning hackathon track record of turning data-driven ideas into working solutions.

SKILLS

Technical: SQL, Python, Microsoft Excel, Power BI, Data Analytics, JavaScript, React.js, HTML/CSS, Bootstrap, Tailwind CSS, Next.js

Soft Skills: Communication, Problem Solving, Adaptability, Continuous Improvement, Creative Thinking, Self-Learning, Presentation

WORK EXPERIENCE

ThoughtBot

Feb 2025 – Mar 2025

Junior Web Developer (Intern)

- Developed and maintained multiple interactive boards using Next.js, implementing dynamic routing and server-side rendering for optimal performance and SEO.
- Played a vital role in testing and debugging the platform to identify bugs, edge cases, and performance issues across different browsers and devices.
- Conducted code reviews and collaborated with senior developers to ensure clean code practices and maintainable architecture.

VOLUNTEER EXPERIENCE

St. Claret College NextGen Club Hackathon

2026

Winner — 1st Place

- Secured First Place among MCA participants for outstanding creativity, originality, and problem-solving excellence.
- Recognized by faculty coordinators for delivering a well-executed, high-impact solution under time constraints.

AXA-Sponsored Hackathon

2026

Volunteer / Idea Presenter

- Conceptualized and presented "Co-Lab," a platform where students and professionals could practice real-world skills together and become industry-ready through collaborative, hands-on projects.
- Pitched the idea directly to industry professionals and judges, winning the hackathon for its practical relevance and originality.

PROJECTS

Health Care SQL Database

SQL / Database Design / Analytics

- Built a comprehensive SQL healthcare analytics dashboard showcasing data modeling, complex queries, and interactive visualizations.
- Applied SQL database design patterns and responsive charts for healthcare metrics analysis and reporting.

Portfolio Website

React / Tailwind CSS / Framer Motion

- Built a single-page portfolio featuring a dark theme, glass morphism, and Framer Motion reveals.
 - Structured sections aligned with LinkedIn, including experience, skills, GitHub stats, and contact.
 - Deployed and continuously shipped updates via Vercel, with environment-based configuration for secure API key management.
-

EDUCATION

St. Claret College (Autonomous), Bengaluru <i>Master of Computer Applications (MCA)</i>	Sep 2025 – Present
Acharya Institute of Management of Science <i>Bachelor of Computer Science (Web Development) — GPA: 7.6</i>	Jan 2022 – Jan 2025

CERTIFICATIONS

Data Analytics Job Simulation (Deloitte Australia, via Forage) Completed a simulated data analysis and forensic technology engagement; built a data dashboard in Tableau and used Excel to classify data and draw business conclusions.
Data Analytics (Edu-pinnacle) Earned a certification in data analytics, demonstrating proficiency in Excel, Microsoft Power BI, and Python.
Introduction to Generative AI: Art of the Possible (AWS) Certified in foundational generative AI concepts and use cases.
Delegate, Global Virtual Summit 2024 (GELP) Selected as a delegate for the Global Emerging Leadership Programs' Global Virtual Summit 2024.
Basics of Python (Infosys) Completed certification in the basics of Python, equipping foundational programming skills.
Web Development (Front-End Development) Gained fluency in front-end development, improving skills in React.js, Bootstrap, JavaScript, and HTML.
