SUMMARY

Bachelor of Computer Science with a focus on web development. Experienced in front-end development, data analytics, and web application development with a strong foundation in programming languages and frameworks.

SKILLS

JavaScript, ReactJs, HTML+CSS, Bootstrap, Tailwind CSS, Data Analytics, Python, VScode, Github, Problem Solving, Communication, Adaptability, Continuous Improvement, Creative Thinking, Self-learning, Presentation, Power BI, Microsoft Excel

WORK EXPERIENCE

Peenya Industry Association (PIA)

Intern

Dec 2024 - Jan 2025

Peenya, Bangalore

- Supported the Peenya Industries Association through the successful execution of data collection in and around the Peenya Industrial Area.

ThoughtBot

Web Developer Intern

Feb 2025 - Mar 2025

- Developed and maintained multiple interactive boards using Next.js, implementing dynamic routing and server-side rendering for optimal performance and SEO.
- Played a vital role in testing and debugging the platform to identify bugs, edge cases, and performance issues across different browsers and devices.
- Conducted code reviews and collaborated with senior developers to ensure clean code practices and maintainable architecture

PROJECTS

Travel & Booking Insights Dashboard using Power BI

Data Analyst

Oct 2024 - Nov 2024

- Built an interactive Power BI dashboard by importing and transforming booking data from Excel.
- Analyzed customer trends, profit growth, discounts, and bookings across countries, cities, and years.
- Applied advanced visuals, filters, and dual-axis charts to deliver actionable business insights.

NewsApp

Front-End Developer

Nov 2024 - Feb 2025

- Integrated real-time data fetching, ensuring users receive the most recent and relevant news as soon as it is published.
- Prioritized breaking news alerts and trending stories to keep users well-informed about significant global and local events.
- Integrated Bootstrap for a clean and responsive design, ensuring an intuitive user experience across different devices.

Train Booking Interface

Front-End Developer

Mar 2025 - Apr 2025

- Designed a comprehensive train booking interface tailored for Indian railway users
- Implemented user management with secure authentication using Supabase, allowing users to view, cancel, and download e-tickets.
- Integrated live train and PNR status through IRCTC-like APIs, providing users with up-to-date information on their journeys.

EDUCATION

Acharya Institute of Management of Science

Bachelor of Computer Science (web development)

Jan 2022 - Jan 2025

GPA: 7.6

CERTIFICATIONS

Basics of Python (Infosys)

Completed certification in the basics of Python, equipping with foundational programming skills.

Data Analytics (Edu-pinnacle)

Earned a certification in data analytics, demonstrating proficiency in Excel, Microsoft Power BI, and Python.

Web Development (Front-end Development)

Gained fluency in front-end development, improving skills in React.js, Bootstrap, JavaScript, and HTML.
